

## Printing Your Vegetable Garden

**Remember: Always SAVE your work before you proceed to do any changes to your garden plans.**

- On your screen, select the area that you wish to print by zooming and/or moving the garden area until what you see on your screen is what you wish to print out. Click on “Reset Pan” button to quickly return to the top LEFT corner of your screen. Otherwise you can click and drag on the white space of your canvas to move what you see on your screen.
- Click on the print icon at the top of the Plan garden screen.
- In the “Print Options” box, select any of the three choices.
- Click on the “Print” button.
- You may have to adjust what you see on the screen to what actually prints out.

You're done!
